A year of steady growth

Northwind Trading sells specialty foods to restaurants and grocers in twelve countries. Revenue grew 10% in fiscal 2026 as volumes recovered in our two largest markets, and gross margin held at 42% despite higher freight costs in the second half.

Operating costs rose more slowly than revenue, so operating income increased to $235 thousand. We paid down the remaining term loan in March and ended the year with no borrowings and $1.2 million of cash on hand.
